 **N.S.D.C.**
National
Skill Development
Corporation
Transforming the skill landscape

 **Healthcare
Sector
Skill Council**

National Skill Development Corporation (NSDC) was set up as part of a National Skill Development Mission by **Government of India** to fulfil the growing need in India for skilled manpower across sectors and narrow the existing gap between the demand and supply. To contribute significantly to the overall target of skilling up of people in India, mainly by fostering private sector initiatives in skill development programmes. Skill based learning focuses on increasing employability through series of inputs to, equip students with appropriate hands-on skills which helps them to be job- ready. Core focus on job role based skills leads to comprehensive specialization, thereby increasing efficacy of the candidate. Skill Training interventions raises confidence, improves productivity & competency of an individual through focused outcome based learning.

Dr. Moopen's Academy, is envisioned by DM Education and Research Foundation trust led by Dr. Azad Moopen a brilliant academician, genuine philanthropist and remarkable entrepreneur. The institution is set with a clear vision not only to provide the best healthcare at affordable cost to the people of Wayanad District, which is considered as the most underdeveloped district of Kerala but also to spearhead health related educational institutions for imparting Medical, Nursing, Pharmacy, Para-medical, Biotechnology and collaborative courses like MEM, PGDEMS, EMT-A, CMT etc. DM WIMS is the first NABH accredited Medical College Hospital in North Kerala and the 2nd in State, located amidst the beautiful hills on Wayanad. The Teaching Hospital was commissioned in 2012 and offers all General and Super Specialty Services. Dr. Moopen's Academy now offers skill based course "**Radiology Technician**" affiliated to National Skill Development Corporation.

Radiology Technician: also referred to as Radiologic technologist, Radiological technologist. Radiology Technicians perform diagnostic imaging examinations such as X-rays, CT and MRI scans under the guidance of a Radiologist. Radiology Technicians are responsible for preparing patients and operating equipment for the test/tests, besides keeping patient records, adjusting equipment's based on patient need and test recommended and maintaining equipment. Radiology Technicians must be able to interact with patient and their attendants and be a team players. They must also be polite and be able to calm and placate upset patients (and accompanying members). They should be able to work for long period of time in standing position and must be able direct, transfer, help patients reach the test location.

Course Details
