Transforming the skill landscape

Healthcare
Sector
Skill Council

National Skill Development Corporation (NSDC) was set up as part of a National Skill Development Mission by **Government of India** to fulfil the growing need in India for skilled manpower across sectors and narrow the existing gap between the demand and supply. To contribute significantly to the overall target of skilling up of people in India, mainly by fostering private sector initiatives in skill development programmes. Skill based learning focuses on increasing employability through series of inputs to, equip students with appropriate hands-on skills which helps them to be job- ready. Core focus on job role based skills leads to comprehensive specialization, thereby increasing efficacy of the candidate. Skill Training interventions raises confidence, improves productivity & competency of an individual through focused outcome based learning.

Dr. Moopen's Academy, is envisioned by DM Education and Research Foundation trust led by Dr. Azad Moopen a brilliant academican, genuine philanthropist and remarkable entrepreneur. The institution is set with a clear vision not only to provide the best healthcare at affordable cost to the people of Wayanad District, which is considered as the most underdeveloped district of Kerala but also to spearhead health related educational institutions for imparting Medical, Nursing, Pharmacy, Para-medical, Biotechnology and collaborative courses like MEM, PGDEMS, EMT-A, CMT etc. DM WIMS is the first NABH accredited Medical College Hospital in North Kerala and the 2nd in State, located amidst the beautiful hills on Wayanad. The Teaching Hospital was commissioned in 2012 and offers all General and Super Specialty Services. Dr. Moopen's Academy now offers skill based course **"Vision technician"** affiliated to National Skill Development Corporation.

Vision technician in the healthcare industry is also known as Eye Technician. Vision Technician performs administrative and certain clinical duties. Administrative duties include scheduling appointments, maintaining medical records and clinical duties include taking and recording vital signs and medical histories, preparing patients for examination, and dispensing ophthalmic prescription. This job requires individuals to have patience, manual dexterity and confidence. The basic requirements for becoming Vision technician are analytical skills, mechanical aptitude, good vision, coordination and self-disciplined. The work ethics characterized by dedication and persistence and the ability to deal tactfully with patients are some essential qualities to become a successful vision technician.
